ABOUT

Ayfleks was founded in 1974 and is a company that produces high-quality and environmentally friendly packaging solutions. Our packaging, made from plastic and recyclable materials, is used in various industries such as the food sector, pet care, and industrial products. Our mission is to provide our customers with high-quality, sustainable, and innovative packaging solutions.

Recyclable and Sustainable Materials:

Our products are manufactured using environmentally friendly and recyclable raw materials. We provide sustainable packaging alternatives by developing solutions to reduce plastic waste.

High Technology and Efficient Production Process:

With our state-of-the-art machines, we carry out high-capacity production with a low carbon footprint. By utilizing energy-efficient systems, we minimize our impact on nature. Our production processes, in compliance with hygiene standards, ensure the highest level of food safety.
